VAL-MATIC'S MADE IN AMERICA VALVES

Did you know Val-Matic is able to supply valves that meet AIS requirements? The American Iron and Steel (AIS) provision requires those receiving assistance from the Clean Water State Revolving Loan Fund (CWSRF) and Drinking Water State Revolving Loan Fund (DWSRF) to use iron and steel products that are produced in the United States. Val-Matic is committed to providing American Made products so they created a resource page on their website for AIS products and their American Made Stock Items brochure. Visit www.valmatic.com for more information on American Iron and Steel (AIS) products.
