## **VAL-MATIC VALVES IN THE PETROCHEMICAL INDUSTRY**

Val-Matic Valves can handle the demands of the petrochemical industry and its wide applications within the industry. Applications range from the production of oil and gas to making products such as plastics, and food additives. It is important that the fluids used in these processes are contained in the piping systems with some of these being hazardous to the surrounding environment. Val-Matic's Quarter-Turn, Air and Check valves are the preferred solution because their ability to handle the needed temperature ranges, pressures and fluids for the petrochemical industry. Val-Matic Valves are designed for long life and trouble-free performance, making them key components in petrochemical industry. For additional information on our products, contact Val-Matic or visit [www.valmatic.com](http://www.valmatic.com).
