VAL-MATIC AIR VALVE BROCHURE

Val-Matic has released an updated version of its Air Valve Brochure. The brochure has a similar feel to previous versions with the addition of the VaultSafe® Family of Products. VaultSafe® products such as the FloodSafe®, FrostSafe® and VentSafe® work in conjunction with air valves in many applications to better protect your potable water system. The valves are certified to NSF/ANSI 61 for Drinking Water and NSF/ANSI 372 Certified Lead-Free. All Val-Matic Valves are manufactured under a certified ISO 9001 quality system. With over 50 years of experience in providing a full line of air valves they are a leader in the industry. The updated brochure is currently available online at www.valmatic.com.
