## **VAL-MATIC HIGH PERFORMANCE BUTTERFLY VALVES**

**Val-Matic's Double Offset High Performance Butterfly Valve**, with a pressure rating up to 300 psi, is constructed of ductile iron with a 17-4 stainless steel shaft for strength and reliability which can be used in municipal, industrial and power applications. Double offset design reduces seat strain and is ideal for applications where the valve is normally left open. For more information on Val-Matic's High Performance Butterfly Valve visit [www.valmatic.com](http://www.valmatic.com).
