VAL-MATIC CONTROL SYSTEMS VIDEO

Is Surge Control a problem? Watch Val-Matic's video demonstrating their Pump Control System which offers system surge protection and provides significant energy savings. The Pump Control system is put to the test in Val-Matic's laboratory where a 40 horsepower Centrifugal Pump is connected to a Val-Matic 6 inch cylinder actuated Ball Valve. Pump Controls are integrated with the ball valve to control the flow of fluid. Visit us at www.valmatic.com to view all of Val-Matic's videos or check us out on Val-Matic's YouTube page.
