## **FOR IMMEDIATE RELEASE**

December 15, 2020

### **VAL-MATIC PRODUCTS FOR REFINING**

Val-Matic's Quarter-Turn Valves and Check Valves are designed to meet the demands of the Oil Refining Industry. The QuadroSphere® Trunnion Ball Valves has a contoured ball with 5 flow paths and a self-flushing cavity to prevent build up making it an ideal valve for applications in Refining where buildup can become hazardous. Val-Matic's American-BFV® Butterfly Valve is built using advanced manufacturing technologies and certified to rigorous industry standards to assure reliable performance. The Cam-Centric® Plug Valve is a quarter turn valve allowing cost effective, low torque actuation for pump control, shut-off and throttling service. All of the Val-Matic Check Valves are also available with a range of metallurgies, seating materials and accessories for your specific application. For additional information on Val-Matic Products visit us at [www.valmatic.com](http://www.valmatic.com).
