November 14, 2019

## **VAL-MATIC CONTROL SYSTEMS**

Val-Matic Control Systems provide low maintenance and reliable control of butterfly, plug and ball valves equipped with cylinder actuators. Hydraulic and electric panels control the valves with air, oil or water power. In addition to control panels and oil accumulator systems, Val-Matic valves can be equipped with limit switches, pressure switches and positioners for remote control and operation. Visit our website at [www.valmatic.com](http://www.valmatic.com) if you'd like more information on any of Val-Matic's Control Systems.
