VAL-MATIC ENGINEERING CAPABILITIES

Val-Matic employs degreed mechanical, environmental, and civil engineers in its sales support, production, and R&D departments. We have registered Professional Engineers (PE) with decades of product knowledge and experience that can assist in designing systems and processes in many industries. Our engineers have developed specialized design tools for sizing and locating air valves and estimating the energy savings associated with valve selection. The basis for the design tools and background information on countless valve topics are also posted on our website. Finally, our engineers are dedicated to improving the industry by participating in various roles on ASME, MSS, and AWWA standards committees. Visit our website at www.valmatic.com if you'd like more information about our other capabilities and why we are Your Valve Experts.
