VAL-MATIC ENGINEERING CAPABILITIES

Respected worldwide for quality products, Val-Matic utilizes the latest design and manufacturing technology coupled with close attention to industry requirements. The application of the latest product innovations while maintaining the highest quality products requires the seamless incorporation of advanced technologies in every step of design and manufacturing. Val-Matic employs degreed mechanical, environmental, and civil engineers in its sales support, production, and R&D departments. We have registered Professional Engineers (PE) with decades of product knowledge and experience that can assist in designing systems and processes in many industries. Our engineers have developed specialized design tools for sizing and locating air valves and estimating the energy savings associated with valve selection. Finally, our engineers are dedicated to improving the industry by participating in various roles on ASME, MSS, API and AWWA standards committees. For more information on Val-Matic's engineering capabilities visit www.valmatic.com.
