VAL-MATIC QUARTER-TURN VALVES

Val-Matic's Quarter-Turn valves are highly engineered products available in a wide range of sizes and pressure classes. **Cam-Centric® Plug Valves**, **American-BFV® Butterfly Valves**, **Ener•G® AWWA Resilient Seated Ball Valves** and **QuadroSphere® Trunnion Mounted Ball Valves** are designed to provide both on-off and process control functions in municipal and industrial systems. Our Plug, Butterfly and Ball valves are built using advanced manufacturing technologies and certified to rigorous AWWA, ASME and API industry standards to assure reliable performance in numerous applications and media including liquids, gases and slurries. The valve seating systems are built with corrosion and wear resistant materials and tested to provide positive seating. Valve flow path geometries are optimized to provide exceptional flow control characteristics, ultra-low headloss, and energy conservation. Visit www.valmatic.com for more information on Quarter-Turn Valves.

About Val-Matic

Val-Matic Valve and Manufacturing Corporation's headquarters is located in Elmhurst IL with additional manufacturing facilities in Addison, IL. Val-Matic is a leading manufacturer of Air Valves, Check Valves, and Quarter Turn Shut-Off Valves for water/wastewater, power, industrial, fire protection and HVAC applications.
