December 13, 2017

**VAL-MATIC VALVES IN THE REFINING INDUSTRY**

Val-Matic's Quarter-Turn and Check Valves are able to meet the demands of the refining industry. Changing crude oil into more useful products is a process not all valves can handle. Val-Matic's QuadroSphere® Ball Valve, HP Butterfly Valves and Cam-Centric® Plug Valves are able to cut off the flow of air and fluids with tight sealing when required. The Swing-Flex®, Surgebuster® and Silent Check Valves protect equipment in the piping system by preventing reversal of fluid flow. Val-Matic Valves are designed for long life and trouble-free performance, making them key components in the refining industry. For additional information on our products, contact Val-Matic or visit [www.valmatic.com](http://www.valmatic.com).
