### **VAL-MATIC SURGEBUSTER® CHECK VALVES**

Val-Matic's Surgebuster® Check Valve has all the design features of the Swing-Flex® such as the short, 35° stroke and non-clog design with the added feature of the Disc Accelerator™ to prevent slamming in the most severe applications. The Disc Accelerator™ is a precision formed stainless steel mechanism that closes the valve disc rapidly thus avoiding slamming by flow reversal and yet allowing the disc to be stabilized under flow conditions. The Surgebuster® is excellent in a number of applications including: high head, multiple pump and surge tank installations. Surgebuster® Check Valves are both NSF/ANSI 372 Certified Lead-Free, NSF/ANSI 61 Certified for Drinking Water and are designed and manufactured to AWWA C508. For additional information on Surgebuster® Check Valves visit [www.valmatic.com](http://www.valmatic.com).

#### **About Val-Matic**

Val-Matic Valve and Manufacturing Corporation's headquarters is located in Elmhurst IL with additional manufacturing facilities in Addison, IL. Val-Matic is a leading manufacturer of Air Valves, Check Valves, and Quarter Turn Shut-Off Valves for water/wastewater, power, industrial, fire protection and HVAC applications.
