QUALITY VALVES FOR THE WATER & WASTEWATER INDUSTRY

Val-Matic water and wastewater valves are highly engineered and have proven dependable in installations worldwide. Our Quarter-Turn Valves are certified to rigorous AWWA, ASME, and API industry standards to assure reliable performance in numerous applications and media including liquids, gases, and slurries. Clean Water Air Valves are NSF/ANSI 61 Certified for use in drinking water systems and NSF/ANSI 372 certified lead-free. Wastewater Air Valves are specifically designed for grit and sewage service without the need for backwashing when combined with fusion bonded epoxy slick coatings. Val-Matic Check Valves are suitable for potable water, abrasive slurries, and corrosive chemicals with a wide range of metallurgies, seating materials and accessories available. For additional information regarding the Val-Matic® Product line visit www.valmatic.com.

About Val-Matic

Val-Matic Valve and Manufacturing Corporation's headquarters is located in Elmhurst IL with additional manufacturing facilities in Addison, IL. Val-Matic is a leading manufacturer of Air Valves, Check Valves, and Quarter Turn Shut-Off Valves for water/wastewater, power, industrial, fire protection and HVAC applications.
